

# Career Interest Profiler

## Updated with more Canadian Content

NEW

go further in career exploration

The new dynamic, interactive *Canadian Career Interest Profiler* report allows you to easily explore career options, by having more information at the fingertips. The new report contains the most current occupational information with over 1100 careers within the database - find out more about top rated careers with just a click of the mouse.

» 10 credits

### Canadian information available includes:

- + Region specific job opportunities
- + Up-to-date information on job duties and skills requirements
- + Salaries and occupational outlook
- + License and certification requirements

The *Career Interest Profiler* is a Canadian developed measure of the six Holland codes and suggests top careers, hobbies, and activities that fit your interests.

The *Career Interest Profiler* offers a substantial number of vocational/technical occupations that do not require a college or university degree.
